

OEM Integration Made Simple

Chrysler and Autosoft DMS

Chrysler has certified Autosoft's DMS for integration with its dealer communications system. **Improve operational efficiencies with significant time savings and error reductions.**

Service Integrations

- » **Chrysler Warranty Repair Orders:** Generate Chrysler-specific warranty repair orders and review and download warranty claims. Use the Chrysler Warranty menu to enter additional warranty information and view, print, and download warranty claims to DealerCONNECT as needed.
- » **VIP:** Retrieve and view VIP from several screens in the Service Writing module using the Get VIP button. The VIP information is displayed on the screen and can be printed to send with the warranty claim.
- » **Chrysler QuickLOP Labor Time Guides:** Search for labor operations and pull them to the warranty repair order to send with the warranty claim.
- » **Chrysler wiADVISOR:** Get real-time bi-directional integration that allows you to look up service customers, schedule online service appointments, and send repair orders directly into the DMS, eliminating the redundancy of re-keying data.

Accounting Integrations

- » **Financial Statements:** Generate a monthly financial statement that is compiled, prepared, printed, and downloaded from the general ledger and transmitted to Chrysler.
- » **Factory Statements:** Pull and post receivables from Chrysler to your DMS.
- » **Vehicle Invoices:** Pull vehicle purchase invoices from Chrysler and post them into your DMS.

Parts Integrations

- » **DealerCONNECT Parts Interface:** Transmit parts information to DealerCONNECT. You can transmit purchase orders, compensation information, and parts returns. The interface menu also provides options that allow you to transmit communications logs to Autosoft.

“ This integration between Chrysler and its dealers is part of our continued commitment to bring innovative technologies to market that help our customers work more effectively. ”

– Bryce Veon, President & CEO, Autosoft
